Available for Remote | Freelance | Contract Opportunities

PROFESSIONAL SUMMARY

Multidisciplinary professional experienced in graphic design, IT systems, front-end web development, digital solutions, and education management. Skilled in technical troubleshooting, AI-assisted workflows, and practical automation. Combines creativity, technology, and leadership to improve communication, operations, and digital experiences.

CORE SKILLS

Graphic Design and Branding: CorelDRAW, graphic design, branding, visual identity, logo design, typography, layout and composition, social media graphics, presentation design, marketing materials, packaging and label design.

Print and Digital Production: Flyers, banners, posters, event backdrops, business materials, product labels, large-format designs, promotional graphics, print-ready artwork, and commercial print production.

Front-End Web Development: HTML5, CSS3, JavaScript fundamentals, responsive web design, website layouts, mobile-friendly interfaces, website deployment, debugging, Git, GitHub, and GitHub Pages.

IT Systems and Technical Support: Computer setup and configuration, software installation, hardware maintenance, Windows and macOS support, network and internet troubleshooting, system maintenance, data and document management, website support, and user assistance.

AI and Automation: AI-assisted content development, prompt engineering, workflow automation, digital productivity systems, research support, and creative-process optimisation.

Digital and Productivity Tools: VS Code, Figma, Canva, Microsoft Office, Google Workspace, WordPress, ChatGPT, and AI-assisted creative tools.

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer, IT Systems and Digital Solutions Specialist

Independent / Remote | 2020–Present

- Create professional logos, flyers, banners, product labels, packaging layouts, social media graphics, and other marketing materials for individuals and organisations.
- Translate client ideas and briefs into clear, visually appealing, and production-ready designs.
- Prepare high-resolution artwork for digital, commercial, and large-format printing.
- Provide computer setup, software installation, troubleshooting, and system-maintenance services.
- Support clients using Windows and macOS systems, websites, online platforms, and digital workflows.
- Build and maintain responsive website layouts using HTML, CSS, and JavaScript fundamentals.
- Apply AI tools and practical automation to improve content creation, task management, and business workflows.
- Provide remote technical assistance and digital solutions for schools, businesses, and individuals.

Web & Graphics Artist / Financial Administrator

Herby International Publicity | January 2019–Present

- Design advertising graphics, brand materials, event designs, print layouts, and promotional assets for different clients.
- Coordinate design requirements, corrections, production preparation, and final client deliverables.
- Prepare print-ready artwork for flyers, banners, posters, and other commercial materials.
- Maintain accurate project, administrative, and financial records.
- Assist with computer systems, digital files, and technical workflows required for daily operations.

ICT Manager and Head of School

Kings Favourite Educational International School | January 2017–Present

- Coordinate academic, administrative, staff, and ICT operations across the school.
- Apply technology to improve documentation, reporting, communication, examinations, and data management.
- Support computer systems, software installations, digital records, and technical troubleshooting.
- Develop school announcements, academic documents, event materials, and visual communication resources.
- Improve communication between management, staff, parents, pupils, and students through organised digital and print systems.
- Coordinate staff activities, school programmes, examinations, and operational workflows.
- Identify and implement practical digital solutions that improve efficiency and organisation.
- Progressed through Class Teacher, Head Teacher, Office Administrator, ICT Manager, and Head of School responsibilities.
- Apply digital tools, IT knowledge and visual communication skills to support teaching, learning, administration, parent communication and staff coordination.

SELECTED PROJECTS

Personal Portfolio Website

Designed, developed, and deployed a responsive personal portfolio website using HTML5, CSS3, and JavaScript. Used Git and GitHub for version control and deployed the website through GitHub Pages.

Live Website: olufemi-olukitibi.github.io/portfolio-website | **GitHub:** github.com/olufemi-olukitibi/portfolio-website

Brand Identity and Packaging Design

Developed logos, product labels, perfume branding, packaging layouts, and promotional materials for small businesses and retail brands, including Nami Scents.

AI-Assisted Digital Workflows

Used AI tools to support content development, research, document preparation, design ideation, and workflow organisation for personal and client projects.
